

5 YEAR PLANS OF THE DEPARTMENT

The vision of Department of Zoology is to impart fundamental knowledge of animal sciences and inculcate moral values of life, respect for nature among the students through quality educational practices. The department is imparting education related to various aspects of fauna and Biodiversity with a vision to establish the department as a centre of excellence. We wish to make our students career oriented and strong to face the challenges of developing world. To achieve this vision our mission in next five years will be:

- To provide knowledge of current advances in Zoology to the students.
- To explore animal diversity and offer skill based programmes/courses.
- To develop research and scientific attitude among students and organise awareness programmes for the people by the students to develop sustainable environment, animal welfare, conservation and protection of biodiversity.
- To develop infrastructural facility and provide access to the faculty members and students to modern instrumentation and techniques.
- To undertake research projects in different fields and conduct quality research in frontier areas so that we are recognized for quality research.
- To publish high quality research papers in different fields and be a center for original productive research and innovative thinking..
- To produce leadership in science and technology.
- To prepare responsible trained manpower in animal sciences, teaching and research.
- To provide transformative, holistic and value-based immersive learning experiences to students.
- To contribute in solving societal problems and well-being of the people.
- To be the largest provider of quality education in India by revising our syllabus as per the needs of industries and institutions.
