

Teaching Plan

Teaching reforms include upgradation of syllabus as a continuous action. Every year courses are reframed in accordance with newer researches in order to turn our students into warriors to face the challenges of the changing world. Latest researches and techniques are added and attempt is made to make the course student friendly. To make it more student friendly students are taught using latest technologies in ICT enabled classes and provided with reference and study material. Special remedial classes are conducted for the students for the students who to clear their doubts of the students on their desire.
